Super Mega Very Special Ultra Extra Ordinary TOM

Good pop music becomes great when it can be instantly recognized by the masses. It becomes even better when it's background is understood allowing all the details to float to the surface. The dynamic duo from Südtirol, **BOB** deals exclusively with catchy tunes that are filled with pop music wisdom, with a wonderfully hedonistic and ironic twist! Even the most diverse elements of everyday sonica come together!

How many bands can lay claim to recording a summer hit from the words of a pre-recorded language course as Bob achieved with their song „Yes For Sure“? tom follows in a similar vein, globalising the good old drinking song („Kazuaki One Two Three“) while the hymnal admiration for the legend of Michael Jackson reaches a memorable crescendo in „Such a much better Place“. With planetary precision a song spins around itself („Brand New Song“), while classic children ditty's grow into adulthood and find themselves living a debauched nightlife („Ten Little Bob Groupies“).

From the first beat through to the hidden track, **TOM** is a small step towards the mythical 100% no nonsense pop album.

“Daring electronic pop that at times could do with just a touch more eloquence.” [Karl Fluch, Der Standard]

“Simple melodies, good beats, with charming and above all nonsensical vocals.” [FM4]
